Subject: RE: Inquiry about Berry Street - Fingers Landfill

Hello Howard,

Berry Street Mall-Fingers Landfill, Facility No. 31-AA-0120 is a pre-1988 site, and therefore financial assurances are not required. Our Engineering Support Branch manager verified the site ceased operating on December 31, 1987. The latest closure/postclosure maintenance plan was prepared in 1992, hence the date reported on SWIS. SWIS has been updated to reflect the correct date.

Thank you,

Elizabeth Felix

Subject: Inquiry about Berry Street - Fingers Landfill

Good morning Richard,

I am hoping you will be able to help, and I apologize for the request for information using email. However, the Title 27 Compliance and Enforcement unit at the Central Valley Regional Board, which I manage, is taking the Owners of the Berry street – Fingers landfill (See the SWIS database information below) to our Board for multiple violations of the WDRs. We are proposing a fine of \$650,000+. Their attorney is trying to stall and my executive management has asked about the status of the Financial Assurance. We are on a deadline outlined in the hearing procedures so that is why I thought email may be the easiest way to get a quick answer to my questions about their financial assurance.

- What is the required amount to fully fund the account?
- Is their post closure account funded?
- Do they have any non-water related financial assurance funds?
- If not, how much is outstanding? When was their last deposit to the account?
- If they are delinquent in their financial assurance amount, has CalRecycle enforced on this matter?

Any information you could provide would be very much appreciated. It would be fantastic if I could know something by this afternoon, so I can share accurate and current information with executive management.

Again, I appreciate your efforts.
